Team Goal: Create a web app that allows a user who doesn't understand data security to clean and anonymise their data.

Current Status:

- *Created mockup web GUI*
- *Designed data flowchart*
- *Set up git repo and cloned to devices*

Tasks:

1. *Writing CSV reader - Sean*
2. *Writing auto-cleaner - Kai*
3. *Writing auto-anonymizer - Ziggy*
4. *Making web app - Michelle*

Possible Concerns/Issues:

- Might encounter the pdf or other type of file
- User doesn't understand what could potentially still be sensitive or unethical data.
